Experience

# DOLPHIN EXPERT PRO GYRO

## Heavy-duty, professional cleaner for commercial public pools

Gain heavy-duty cleaning performance, with robust reliability for long-term, cost-effective operation. Dolphin Expert Pro Gyro from Maytronics is the proven, professional solution for commercial professional pools.

Advanced technologies ensure comprehensive scanning of the entire pool and highly effective brushing and filtering throughout. With fully automated operation, your staff can focus on other tasks and your pool water is left sparkling clear and hygienic after every cleaning cycle.

## Total pool cleaning

Unique gyroscopic system delivers accurate and effective scanning for systematic cleaning along the entire pool.

## Maximum hygiene

Active brushing efficiently removes algae and bacteria, enhancing water quality.

## Dolphin Expert Pro Gyro

Put the power of two robots to work at once with this heavy-duty cleaner designed for professional pools up to 33 m in length.

With dual brushing action, dual high-capacity, ultra-fine and fine filtration options, and a sophisticated gyroscope, it expertly cleans the entire pool floor and walls with maximal effectiveness and efficiency.

## Specifications:

|                                    |                                                                                        |
|------------------------------------|----------------------------------------------------------------------------------------|
| Cycle time                         | 4 / 6 / 8 hours                                                                        |
| Cable                              | 40 m                                                                                   |
| Swivel on cable                    | Prevents cable tangling                                                                |
| Filtration                         | Dual level filtration for fine and rough dirt                                          |
| Brushes - Combined brushes         | Matches all pool terrains                                                              |
| Remote control                     | Set-up of parameters and cleaning programmes                                           |
| Weight                             | 20 kg                                                                                  |
| Suction rate                       | 32 m³ per hour                                                                         |
| Motor unit voltage                 | 27 VDC                                                                                 |
| Power supply - digital switch-mode | Output <30 VDC; IP 54; full filter bag indicator; operation delay; water line cleaning |
| Caddy                              | Included                                                                               |
| Warranty                           | 24 months on all parts                                                                 |
