BLING

CLARIFYING SKIMMER TABLET

ACTIVE CONSTITUENT:
ALUMINA SALT

CONDITION OF SALE

FOCUS PRODUCTS P/L will not accept any responsibility howsoever it will arise and whether consequently or otherwise in connection with the supply or use of these goods other than their responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by applicable statutes. To the extent allowed by such statutes the liability of FOCUS PRODUCTS P/L is limited to the cost of the product purchased.

Bling clarifying tablets assists in the clarification of pool water through binding organic and inorganic wastes together. Bling clarifying tablets are a rapidly dissolving, single dose polymeric clarifier that can be placed directly into the skimmer basket.

DIRECTIONS FOR USE

For best results ensure the pool water is properly balanced and the pH is between 7.4 and 7.6 before dosing. Backwash and clean the filter then add one Bling tablet to the skimmer basket and filter for 24 hours. A backwash may be required after treatment. Approximately one tablet per 50,000L although with high bather load an additional tablet may be required.

SAFETY

Avoid skin and eye contact and do not ingest the powder. Keep locked up away from children. Store in a cool, dry place and reseal when not in use. Wash off skin with soap and water. Flush eyes with copious quantities of water. If irritation persists, seek medical advice. DO NOT mix with other chemicals. Dilute only with water.

SAFETY DIRECTIONS

Product may irritate eyes, nose and throat. Avoid contact with eyes. DO NOT mix with other chemicals. Wash hands after use.

FIRST AID

If poisoning occurs, contact the Poisons Information Centre (Australia - 131126, NZ - 0800764766) or a doctor. If swallowed, DO NOT induce vomiting - provide a glass of water and seek medical attention. In case of contact with eyes, rinse immediately for at least 15 minutes with plenty of water and contact a doctor or Poisons Information Centre. After contact with skin, wash thoroughly with soap and water. If irritation continues, seek medical advice.
