## pHiX DRY ACID

ACTIVE CONSTITUENTS:  
SODIUM BISULPHATE

### CONDITION OF SALE

FOCUS PRODUCTS P/L will not accept any responsibility howsoever it will arise and whether consequently or otherwise in connection with the supply or use of these goods other than their responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by applicable statutes. To the extent allowed by such statutes the liability of FOCUS PRODUCTS P/L is limited to the cost of the product purchased.

The pH of your swimming pool water must be maintained within the range of 7.2 and 7.8 because of its impact on chlorine efficiency, bather comfort and possible corrosion or scaling of the pool surfaces.

### DIRECTIONS FOR USE

This pHiX tablet is only designed for pools 25,000 litres and above as the pH reduction may be too great in smaller pools. Before adding the pHiX tablet to the pool, test and adjust the TOTAL ALKALINITY of the water to between 80 to 120 ppm. Test pH and if higher than 7.8, turn the pump on and add 1 x pHiX tablet directly to the skimmer box of the pool. Ensure that you do not block the filtration system with the tablet. Run the pump for 4-6 hours or until the tablet has completely dissolved. Re-test the pH and add a further pHiX tablet if the pH is not within the acceptable range.

### WARNING

ALWAYS ADD THE pHiX TO WATER. DO NOT mix with chlorine products or any other chemicals or materials other than water. Use plastic containers only.

### RISK

Causes burns. Irritation to respiratory system

### SAFETY

Avoid skin and eye contact and do not ingest the powder. Keep locked up away from children. Store in a cool, dry place and reseal when not in use. Wash off skin with soap and water. Flush eyes with copious quantities of water. If irritation persists, seek medical advice. DO NOT mix with other chemicals. Dilute only with water.

### SAFETY DIRECTIONS

Highly reactive oxidising chlorine compound. May cause fire or explosion or produce severe burns. Product will irritate the eyes, nose, throat and skin. Avoid contact with the eyes, skin and clothing. DO NOT inhale dust. DO NOT allow the product to come into contact with other chemicals, especially acids, or with combustible materials such as paper, fabric, sawdust or kerosene. DO NOT allow it to get damp. Use clean containers for dispensing. DO NOT mix with other chemicals. DO NOT mix with different types of chlorinating chemicals. Mix with water only. DO NOT ADD WATER TO PRODUCT - ADD THE PRODUCT TO WATER, but in case of fire drench with water. Store undercover in a dry, clean, cool, well ventilated place away from sunlight. Store and transport in an upright container. In case of spillage, flush with large quantities of water. Wash hands after use.

### FIRST AID

If you feel unwell, contact a Poisons Information Centre (Australia - 131126, NZ - 0800764766) or a doctor. If swallowed, DO NOT induce vomiting. Seek medical attention. In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre. After contact with skin, wash thoroughly with soap and water. If irritation continues, seek medical advice.
