## pH Controller

Our advanced pH Controller automatically maintains perfect pH balance in your pool.

### Automate your pH balance

Add the **B-Balanced** fully automated pH controller and take the guesswork out of maintaining your pool's pH.

The B-Balanced will automatically dose diluted acid accordingly to maintain safe pH levels.

Feel reassured that you are protecting your valuable investment!

### Benefits

- Automatically doses and maintains safe pH/acid levels
- Protects the pool surface and pool equipment
- Prevents pH from fluctuating in and out of balance
- Never overdose your pool with acid again
- Save on chemical costs
- Compatible with all types of pool surfaces and sanitising systems
- Simple to operate

### Features

- Easy to use LCD for setting pool volume and acid dosing
- Works with any high and low-flow filtration system
- Uses a proven acid-dosing pump technology
- Commercial-grade squeeze tube and motor
- Suits all pools up to 150,000 litres
- 1 year warranty
