

# LVT100-Q TRANSFORMER

With 4 output terminals and 100VA output, the Spa Electrics **LVT100-Q** transformer is made to be a versatile solution to powering your underwater lighting.

Utilising Captive Terminals, the **LVT100-Q** allows for easy wire termination and quick connection of up to 4 lights to the transformer, making it the best addition to our triple and quad builder packs.

## IP44 Weather Rating

Comes with a weather protected auxiliary GPO.

## Independent Fuses

Fuses can be changed to supply up to 100W from a single channel.

## Captive Terminals

Quick-connect, easy wire termination.

## LED Power Indicator
