

Any pump.
Any pool.
Existing system.
New build.

Clever App. Simple system.

Love your pool but hate the hassle?

SplashMe is the clever automation system that keeps water clean, sanitised and at the perfect temperature. It really puts the fun back into owning a pool – all you need to do is jump in!

Designed and made in Australia, SplashMe has set the new standard for pool and spa maintenance, taking care of the complex so you can keep it simple.

SplashMe is perfect for new builds or easily retrofits to existing systems. No rules, no restrictions – it's the perfect partner for pool owners.

splashmepool.com.au

Compatible with all brands

Australian designed and made

Patent protected technology

Save hundreds in electricity and equipment costs

Easy to set up, easy to use, contactless support

Saves you 3+ hours every week in maintenance

SplashMe is the must-have product for every pool and spa owner

//

SplashMe saved me \$3K in energy bills in the first year alone!

– RH, NSW

//

Our whole family has access to the App, so we all keep an eye on the pool and, the kids can look after things while I'm working away.

– Andy WA

//

It's reliable and, at a glance, I can check the pool's vitals without going to a pool shop. No mucking around – it just works.

– Hans WA

Fancy without the fuss to get your weekends back

Controlled by an easy-to-use app, SplashMe short cuts maintenance without compromising on quality. Technically advanced, energy-efficient and hassle-free,

SplashMe is the investment paying you back from the day it's installed. The simple yet powerful App offers the freedom to create scenes and schedules that work for you. Party in the pool? Hit the "Boost" schedule for lights, water features and extra cleaning. Cooler weather? Change over to a winter mode to maintain and save.

Powered by science and smart technology to deliver fuss-free maintenance and cost savings and a pool and spa that's healthy and swim-ready every time you jump in!
